Introducing ARORx!

Your employer has partnered with ARORx for your prescription drug coverage.

With ARORx, you have access to **all national pharmacy chains** and **most smaller local pharmacies**.

So what's different?

New Card. Look out for your new prescription card in the mail. Give to your pharmacist on your next fill, on or after the effective date. You usually only need to give your new information 1x at the pharmacy to keep on file for future fills.

New Mail Order Pharmacy and Website. Set up your new mail order account at members.arorx.com

Price Drug & Find Pharmacy. After creating your account, utilize the "Price Drug & Find Pharmacy" to search for different pharmacies and pricing in your area.

Welcome to the ARORx Member Portal. Using the portal members can refill prescriptions, download benefit documentation, view/print/download prescription history information, manage dependents, find a pharmacy, and more.

The image shows two screenshots of the ARORx Member Portal. The left screenshot is titled "Quick Refill" and contains input fields for "Prescription Number", "Date of Birth (mm/dd/yyyy)", and "mm/dd/yyyy", with a "Find Refills" button below. The right screenshot is titled "Log Into Your Account" and contains an "Email Address" input field with a "Go" button, a "Create Account" button, and a "Forgot My Password" link. A red note below the buttons says: "If you are a new user please click the Create Account button."

The screenshot shows a search interface titled "Find Drug and/or Pharmacy Information". It includes a search bar for "Drug Name", "Quantity", and "Days Supply". Below this is a large input field for "Enter An Address". Underneath are dropdown menus for "City", "State", "Zip", and "Radius" (set to "5 miles"). A green "Search" button is at the bottom right. A disclaimer at the bottom reads: "Prescription copayments are only an estimate and may vary based on the submission date and your pharmacy benefit plan policy. Always refer to your benefit plan documentation for more information and consult with your physician or other qualified health provider regarding medication appropriate for your medical condition."

So what's different (continued)?

High Cost Drug Program. Did you know the cost of drugs has increased up to 5,000% in the past 5 years and 2% of claimants account for 40-50% of overall spending?

ARORx's high cost drug service reduces cost on drug spend for you and your employer, often getting your high cost medication for free & delivered right to your door.

All specialty drugs and drugs identified on the ARORx high-cost drug formulary list are excluded from filling through regular VytOne process at local or mail order pharmacies. If member is determined by ARORx to be ineligible for an alternative sourcing program through the drug's manufacturer, ARORx will source medication for member through direct sourcing with ARORx's contracted direct source pharmacies.

To find out if you're taking a high cost drug, take a look at page 6 - 8's list of Rx. If you see your Rx on the list, contact ARORx at 833-306-4092 **November 21st** to set up your new fill process.

Be sure to engage with ARORx promptly to ensure timely processing and no disruption to your fill.

Tips for a successful start:

Every change has its challenges.
Follow these best practices for a smooth transition.

1. Refill your prescription right before the effective date so you have a full supply on hand. Most plans allow you to refill your prescriptions before you completely run out.
2. Once your new plan starts, don't fill your first prescription going into a weekend, a holiday, or right before your vacation. Please fill with at least 3 business days to spare so our team can solve any scenarios that may pop up.
3. Call your pharmacy before you pick up your first fill on the new plan to give them your new plan information and confirm your cost before you're standing in line. 99% of pharmacy calls ARORx receives during implementation are due to pharmacies running old plan information.
4. Call ARORx for assistance. If you have any questions or need assistance, contact ARORx 24/7 at **833-306-4092**.

After the effective date, if you receive a new prescription from your doctor:

1. Call the pharmacy before picking up the new drug to confirm your cost.
2. When the pharmacy runs your prescription in their system, they will be notified if it's a drug you'll need to fill through ARORx.
3. Contact ARORx to start the process immediately, or ARORx will contact you the following business day.

High Cost Drug List

The most common high cost drugs are listed below. This list is not an exhaustive list of all high cost drugs, and ARORx may contact you on drugs not listed.

A	BRAFTOVI	ENTYVIO	GRANISETRON HCL
